# INITIATIVES

Edifying Hope Foundation is a non-profit organization dedicated to improving child education in underserved communities in Ghana. Since early 2025, it has focused on strengthening efforts to enhance the quality of education in areas most in need.

Edifying Hope Foundation representatives met with Headmaster Joseph Atuahena Mensah and the dedicated teaching staff of Kankyiabo D/A Primary and JHS to gain a deeper understanding of the school's urgent needs.

The school currently serves over 200+ students from KG1 through JHS3, across 11 classes, supported by 16 staff members, including community volunteers. Enrollment remains unstable, as many families place limited value on formal education—an attitude shaped by the school's deteriorating infrastructure and lack of resources. Though the institution falls under the Ghana Education Service (GES), it receives little tangible support. When assistance does come, it is often delayed, insufficient, and unable to meet even the most basic requirements—such as building repairs, learning materials, and adequate staffing—further affecting the quality of education and the students' morale.

In response, Edifying Hope Foundation is launching The Kankyiabo Project—a Kingdom-driven community initiative designed to rebuild, restore, and renew hope for the children and families of Kankyiabo Community. Our mission is to demonstrate the love of Christ through action, empowering this community to rise and thrive through faith and education.

“And the King will answer and say to them, ‘Truly I tell you, whatever you did for one of the least of these brothers and sisters of Mine, you did for Me.’” — Matthew 25:40 (NIV)

# PROBLEMS

INSUFFICIENT BASIC FURNITURE  
DESPERATELY MISSING BASIC SCHOOL  
FACILITIES

LIMITED ACCESS TO EDUCATIONAL  
MATERIALS

NO SCHOOL FEEDING PROGRAM  
LIMITED ACCESS TO FURNITURE  
FOR THE TEACHING STUFF

LIMITED ACCESS TO UNIFORMS  
GRUELING COMMUTE FOR THE  
TEACHING STUFF

# Reasons to Help Us!

[www.edifyhope.org](http://www.edifyhope.org)

1

**UNSAFE CLASSROOMS:** The school's mudbrick buildings are collapsing. Walls are crumbling, doors and windows are gone, and roofs are caving in, leaving students exposed to rain, wind, and danger every single day.

2

**NO PROPER RESTROOMS:** With no functional restrooms, students and teachers face daily health and hygiene struggles, forcing many to endure conditions no child should experience.

3

**NO BOOKS OR LEARNING TOOLS:** Most classrooms lack textbooks, storybooks, and even basic supplies. Children are eager to learn, yet have nothing to read or write with.

4

**LOST POTENTIAL:** Bright young minds are being held back not by their ability, but by their environment, an environment that desperately needs our help.

# SOLUTIONS

## TO THE ISSUES THE SCHOOL IS FACING

**01**

**Educational Revitalization:** Constructing a new 11-classroom block with desks and chairs, along with dedicated ICT and canteen rooms, plus offices for the headmaster and teachers

**02**

**Supplying Educational Materials:** Providing textbooks, stationery, and teaching resources to support effective learning

**03**

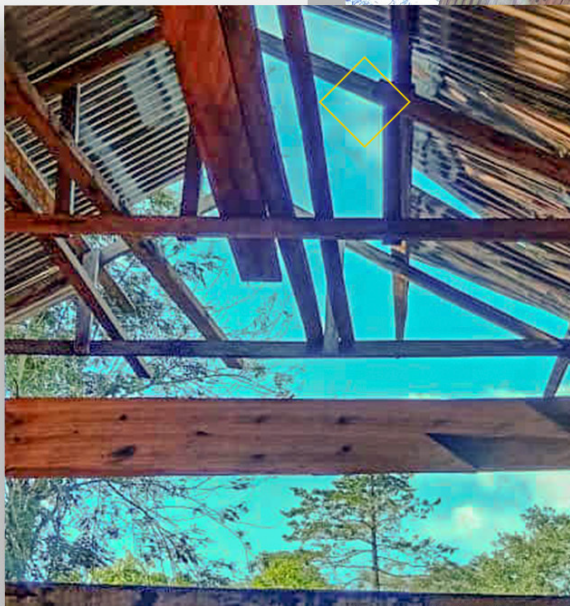

**Access to Clean Water:** Constructing a bore-hole facility to provide safe and reliable drinking water
